THE IMPOSSIBILITY OF EQUIVALENCE

Critical Theory and Translation in Qualitative Research

Pengfei Zhao, Ph.D.
Assistant Professor, University of Florida

第四十二章 劳动人事管理

第一节 劳动管理

一、用丁形式

(一) 清末民初用工制度

政权机构不管劳动就业、劳动者自谋生路。私人企业用工采用雇用制、雇用形式亦

学徒工 工厂、手工业作坊和商店等行业招收徒工,无统一标准,年龄一般在12-20 岁之间,须托亲友介绍,找店铺作保,订立契约,学艺期多为三年,不发给工资,只 供購伙。县境去奉天(沈阳)、长春、牡丹江、哈尔滨等地谋生者众。当时把这种人叫叫 关东"住地方"。他们担水打杂、哄孩子、端"夜壶",无所不包,待熬得满徒,才能挣 几个钱,名曰"吃劳金"。若老板看不中眼,就打发走了事,称"卷行李";干上十几年, 甚至几十年, 熬上吃几厘 "份子" 掌柜的人其少

雇员 工厂、商号、作坊、当铺、钱庄等行业的职品均多醇率、异国 25 年 (1936), 全县 293 家私人企业, 雇用 386 人, 职工受雇后, 一般为月薪制, 薪金多少不 一,由企业自定,雇主可随意解雇职工。

童工 工厂招收童工,年龄一般在10-16岁,童工进厂时,订立合同,交纳一定 数额的保证金。在试用期间除供给粗劣膳宿外,无任何待遇。试用期满,即为正式雇用, 所付工资报酬仅及成年人的一半或三分之一。中途不得无故离去,否则要赔偿厂方"损

除上述用工形式外,很多无地、少地农民,当长工、打短工。1948年土改前县长工 达 7133 人。打短工,通过"工夫市",卖日工者不计其数。长工的年工资多者只有 8 斗 米 (不足 160 公斤), "卖工夫" 日资小米 1—1.5 公斤。还有一批木工、瓦工、白铁匠、 刺头的、修鞋的、货邸担、锔锅的等串乡做活,挣钱棚口。

(二) 新中国建立后的用工形式

建国后至 1952 年,县内招工和劳动就业由民政科负责。1953 年县建经济计划委员 会,管理招工事宜。1956年县计划委员会和县人委人事科统管职工的安排、调动、招收。 1981 年建县劳动局。1982年 5 月,局内设劳动服务公司。至 1983 年底,劳动和人事局 合并为劳动人事局,专司职工的招收、安排、调动、安全、福利、调资、晋升等。 具内招工分四种形式。

(1) 1949-1966年,工商企业自招与国家招工相结合。1958年以前,企业用工可

被访者: 然后我就跟我妈说,我说妈那要不我也不上学了,我看鸡。不会干别的,那时候太小了,

太小下地不会干别的。我说我看鸡去,然后不挣点工分吗。然后你叔一般的情况下不管,家里头啥事

110 也不管,就包括我上学后来说非得让参加高考什么的你叔也不管,很少说一句话,都是你婶说。我就

跟我妈说,我妈说那你不上就不上被,跟那个大姐看鸡去吧,我说中。我妈就跟人家生产队长说去了,

112 然后就说看鸡去了,就不上了。不上了时候不是一天比一天暖和,然后都在院子里吃饭。在院子里吃

113 饭有一天下午,中午吃饭其实都工夫唠嗑干什么的,下午吃饭也不算太晚。然后墙上不知道是谁写的,

114 其实说不一定就是我这家人写的,写了一个机器的机,就在那个砖上的墙上用粉笔写了一个机。 然后吃饭前我拿筷子拿碗就看到这个字了,还有哪的我都不记得了,反正就是指着这个字,我说

116 念机。你姥爷也在外头做着呢,你的姥过来过去都听我说了。我说这个字念机,好像是我老叔说你看

117 鸡吗,就是那个鸡。我说不是,我说这个是织布机的机,那时候家里都织布,不知道机器,就是知道

118 织布机那个机,我说不是,我说这个是织布机的机。

然后我爸一听,哎呀这玩意,你说这孩子还是得上学,你说说这还没上一年学就知道这个是织布

120 机的机,不是看鸡的那个鸡,这要不上学你说知道这个。然后就又琢磨了,又琢磨让我上学,就跟我

121 说。其实我也不是说不愿意上学,说实在的学习也不累,然后之后就上去了。就这么着反反复复弄了

122 三回,不上,一到感觉到家里压力太大、太困难的时候就担心回家挣分,不上完了之后就在家干一段,

123 然后再回去上去。一般的情况都是到春天需要看鸡的时候,他别的不会干不是,差不多给这看鸡这一

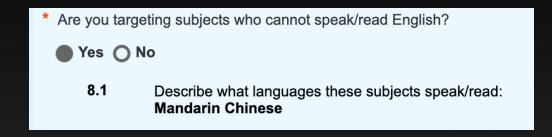

124 段过去了,这会再回去上去了。

125 被访者:一到看鸡这时候就有辍学的念头。

被访者:闹了三回就在小学期间,接着文化大革命,文化大革命怎么呢。文化大革命其实你婶我

Sample qualitative data in Chinese, from left to right: An essay written by a research participant, a local chronicle, an interview transcript

Research Scenario II

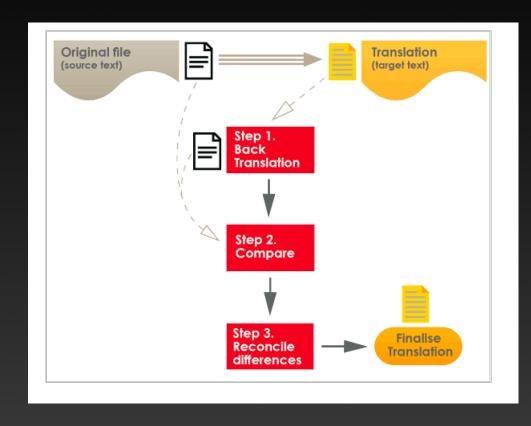

You must attach informed consent forms translated into the languages of the non-English speaking people you seek to enroll. Describe who translated the consent forms, their qualifications:

Upload the back translation of the consent forms, assent, or information sheets here:

Translation and Qualitative Research

"Translation dilemma":

...whether methodologically it matters if the act of translation is identified or not; the epistemological implications of who does translation; and the consequences for the final product of how far the researcher chooses to involve a translator in research. (Temple & Young, 2004, p.161)

Today's Presentation

An outline to put translation and critical theory in conversation with each other in qualitative research

- Problematizing the search for equivalence in translational practice
- Three shifts to move away from such a pursuit for equivalence
 - * On the level of onto-epistemology
 - * On the level of research ethics and politics
 - * On the level of research practice

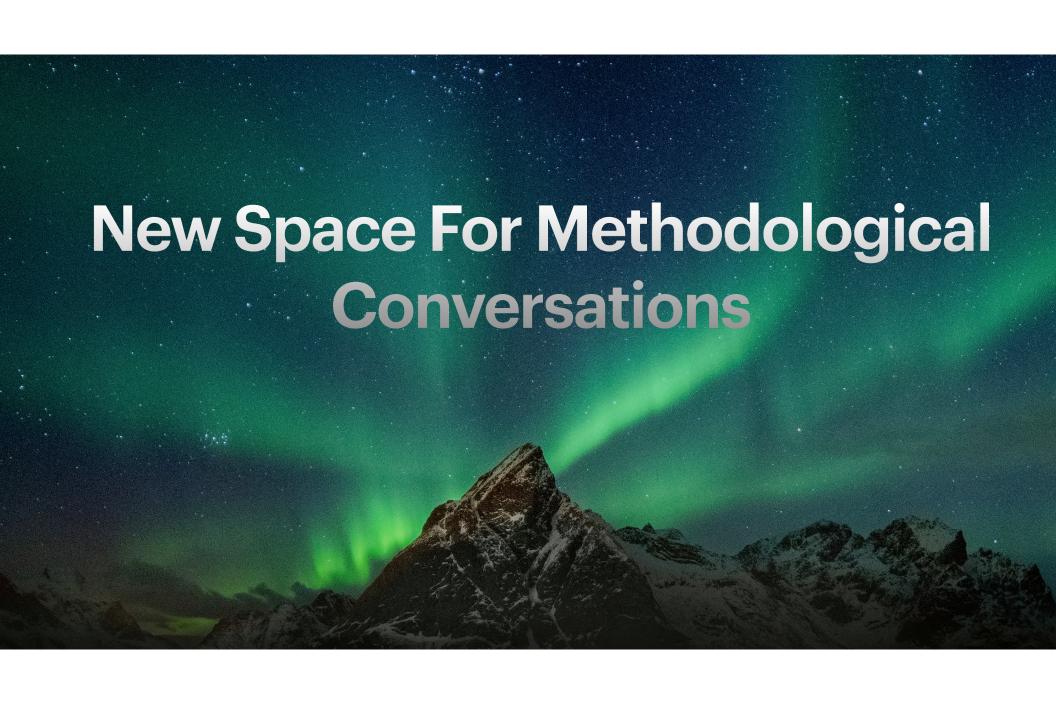

The Search For Equivalence in Translational Practice

- Translatable or not, that is a question (eg. Walter Benjamin, Emily Apter)
- Equivalence: "a procedure in which the same situation is replicated as in the original but different wording is used" (Vinay & Darbelnet, 1995, p. 32)
- Semantic equivalence and beyond

Problematizing Equivalence

Translatability— Equivalence—Invisibility

Under the regime of fluent translating, the translator works to make his or her work "invisible," producing the illusory effect of transparency that simultaneously masks its status as an illusion: the translated text seems "natural," i.e., not translated. (Venuti, 1995, p.5)

What does it mean to move away from a translational practice that searches for equivalence?

- On the level of onto-epistemology: The theories of meaning and validity
- On the level of research ethics and politics
- On the level of research practice

On the Level of Onto-epistemology

- At the center— the understanding of meaning
- Cultural typification
- Understanding meaning as a range of possibilities vs. correspondence (Carspecken, 1996; Zhao, et al., 2021)

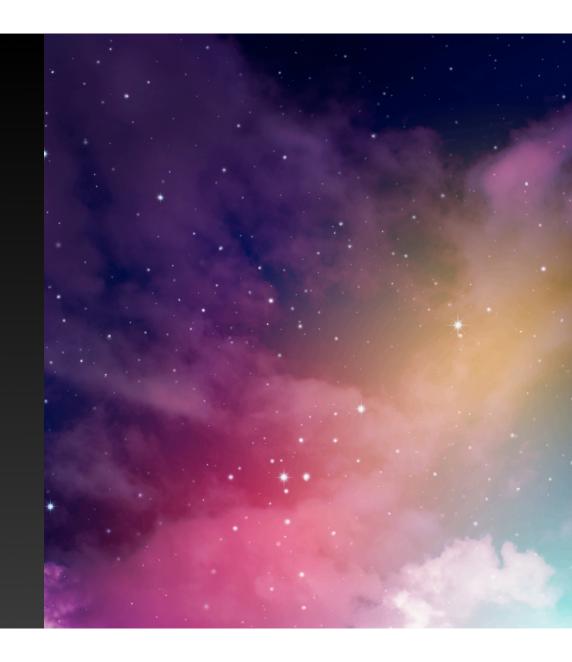

On the Level of Research Ethics and Politics

- The dominant role of English
- The role of translator in qualitative research
- Asking the key questions of whether to translate or not, as well as into what languages and for what purpose we translate

On the Level of Research Practice

- Explicate and critically interrogate the very often messy and porous process of researching and translating
- Ask the question of what norms are foregrounded and recognized, or neglected and concealed through the translational practice
- Foster reflexivity and strive for an equitable, democratic research process

Implications for Qualitative Researchers

Qualitative research: Praxis vs. Procedures

- 1. Enacting a more dynamic theory of meaning
- 2. Visiblizing translators
- 3. Reflecting upon the power relationship in deciding whether to translate or not
- 4. Centering your key audience
- 5. Promoting multilingual practice and increasing multilingual awareness
